

ASIM KAMAL

Full Stack Developer | MERN Stack & Laravel

[+92 332 9280805 \(WhatsApp\)](https://wa.me/923329280805) | asimkamalk@gmail.com | github.com/asimkamalk | linkedin.com/in/asimkamalk

SUMMARY

Full-stack developer with hands-on experience across the MERN stack and Laravel/PHP, delivering production-ready web applications for local and international clients. Skilled in building booking systems, e-commerce platforms, and AI-powered applications from requirements through deployment. Strong foundation in clean coding practices, scalable system design, RESTful API development, and end-to-end project delivery. Open to Full Stack, MERN Stack, or Laravel Developer roles.

EXPERIENCE

Full Stack Developer — *Freelance / Self-Employed (Client Projects)* Oct 2025 – Present

- Ongoing full-stack development work using both Laravel (PHP) and the MERN stack, depending on project requirements.
- Independently designed and developed multiple full-stack web applications for international clients in Dubai and Saudi Arabia, including a trip and tour booking platform and a business/service-based web platform.
- Owned end-to-end delivery: requirement gathering, system architecture, development, deployment, and post-launch support.
- Built and maintained applications using Laravel, PHP, MySQL, React.js, Node.js, and Express.js, following security and performance best practices.
- Managed client communication directly, translating business requirements into scalable technical solutions and ensuring on-time delivery.

PHP/Laravel Developer Intern — *Khyber Coded* Jan 2025 – Sep 2025

- Developed and maintained web applications using PHP and Laravel, focusing on dynamic, scalable, and secure solutions.
- Collaborated with cross-functional teams to implement features and optimize backend performance.
- Wrote clean, maintainable code following best practices for application security and performance.

Full Stack Developer Intern — *AppSpot* Jul 2024 – Oct 2024

- Gained hands-on experience in full-stack development using React.js, Node.js, and Express.js.
- Built dynamic user interfaces and backend APIs, collaborating with senior developers on product features.
- Contributed to application performance optimization through code reviews and debugging sessions.

EDUCATION

BS in Computer Science — University of Engineering and Technology, Peshawar Sep 2021 – May 2025

SKILLS

JavaScript, PHP, HTML, CSS, Bootstrap CSS, Tailwind CSS | React.js, Next.js, Node.js, Express.js | Laravel, MySQL, MongoDB, Sanity CMS | WordPress | Git, GitHub | REST APIs, Stripe Payment Integration

KEY PROJECTS

Digital Business Card Platform (*Laravel, Tailwind CSS — Client Project*)

- Built a full-stack digital business card platform with QR code and vCard technology, including a responsive dashboard and an admin panel with user management and analytics.

Online Food Ordering System (*MERN Stack*)

- Developed a full food-ordering web app with a React.js customer interface, Node.js/Express REST APIs, MongoDB data layer, and an admin dashboard for order and menu management.

Tour Booking System (*Laravel — Client Project*)

- Delivered a booking platform with calendar-based scheduling, user authentication, and Stripe payment integration.

Riyadh Prints E-Commerce Website (*WordPress, WooCommerce — Client Project*)

- Built a full-featured e-commerce site with custom pricing, cart/checkout flow, payment gateways, and performance optimization.

AI-Based Web App for Personalized Treatment & Diagnosis (*MERN Stack — Final Year Project*)

- Built an AI-powered application delivering personalized treatment recommendations using React.js, Node.js, and MongoDB.

Pharmaco Pharmacy Website (*Next.js, Sanity CMS — In Progress*)

- Building an online medicine delivery platform using Next.js for the frontend and Sanity as a headless CMS, enabling users to browse, order, and get medicines delivered.
